## *Dinner Experience* 2024

## **DELICIOUS & INTERACTIVE**

The Culinary Theatre is an interactive culinary experience, a perfect dining experience for those looking for more than just a mouth watering dish.

In this presentation style kitchen, Living Water Resort's Executive Chef Joseph Naether prepares a customized, 6 course seasonal menu. While guiding participants through the preparation and execution of each course, Chef Joseph gives his tips and tricks for his custom 6 course seasonal menu, while you watch and learn first hand how it's made.

This makes for an intimate experience for a small group—dining like you never have before.

This unique experience can be further enhanced with local wine and craft beer pairings.
